“Setting floor warming to 75 degrees.”

“Set my floor warming to 75 degrees.”

Make Your Customers Happy with a Smart Floor Warming Thermostat

Many flooring contractors don't feel comfortable with installing floor warming thermostats and leave easy business on the table. For over 30 years, SunTouch has been helping contractors get more business and make more money with fast, easy-to-install floor warming thermostats. Feel confident in your installation and relax knowing your customers are satisfied with SunStat ConnectPlus.

- ✓ Fast installation with step-by-step set up
- ✓ Easy floor warming control through voice commands
- ✓ Perfect for remote control through the Watts® Home app
- ✓ Energy-efficient features help save energy and money
- ✓ Compatible with **SunStat® R4 Relay** for larger systems and **ConnectPlus™ Smart Sensor** for leak detection and floor temperature monitoring
